Greetings, friends and neighbors!

This month as I was scrolling through internet videos, I came across a video of a woman making herself a cup of tea, using the best china, the special table covering, a silver spoon. The words of the narrator gave me pause to think about how useless it is to hang onto things because they're "too nice" for everyday use. My mother had a cedar chest full of things that she put away "for better days." They never saw the light, except when she took them out once or twice in my lifetime to show them to me, and again after she died. My dad was the opposite; they had a set of silver-plated flatware that he insisted we use. We used them until the silver wore off (and who knows what kind of metal was underneath). These words ring true.

What are you waiting for, my darling?

You're saving all the pretty things--the special things.

They're tucked away in drawers, pushed to the back of the cabinet,

Away up on a special shelf,

Away where even your eyes don't have the pleasure of them.

What are you waiting for, my dear?

Are you waiting for a special day?

A special event?

An elusive person precious enough for your precious things?

Use the pretty things, my dear.

Eat the candy.

Pour out the heavy cream.

You don't need to wait, my darling.

The special day is today!

The special event is life!

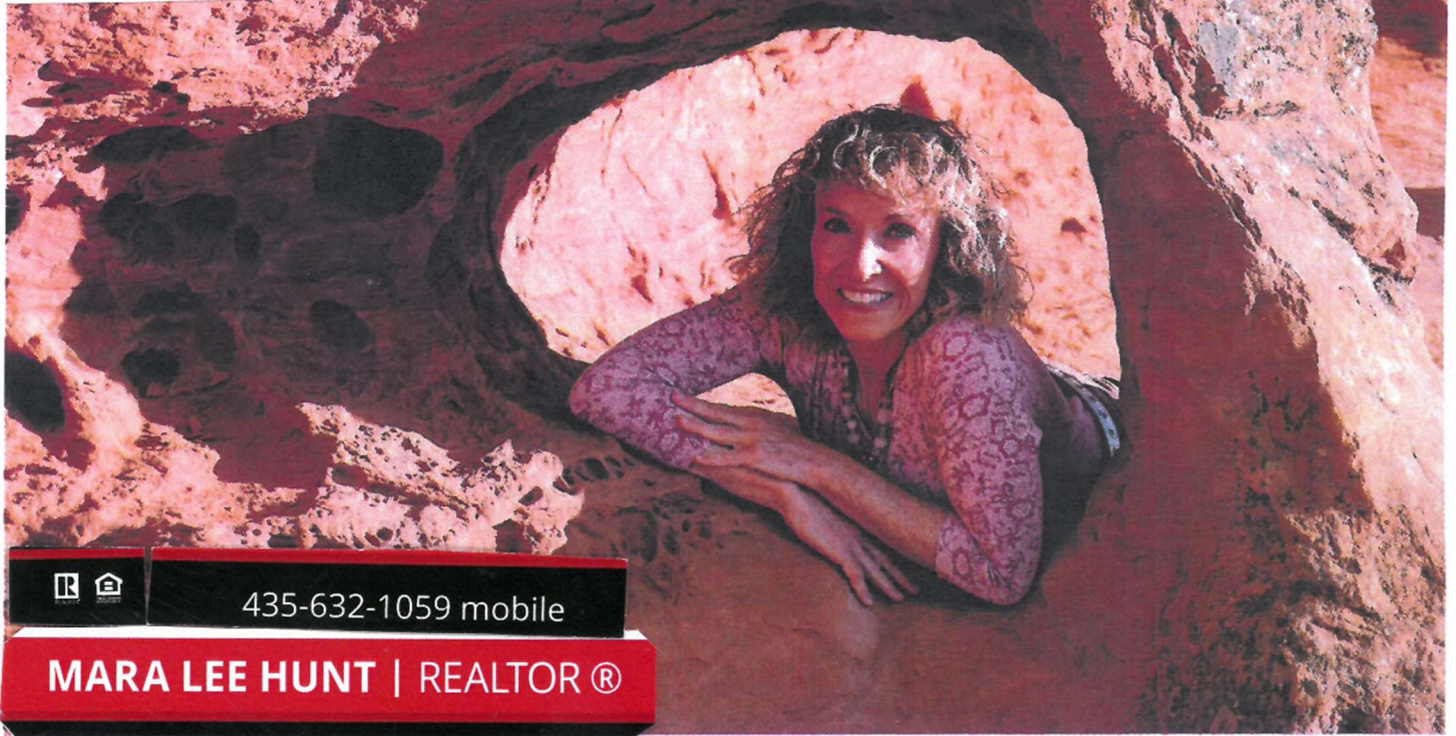

The precious person is you.

A 100-year-old pub was illegally demolished in 2015 by greedy developers who wanted the land. They were ordered to rebuild it exactly as it was, brick by brick. The Carlton tavern was the only building on the street that wasn't destroyed during the Blitz in World War II.

Elvis Presley's manager sold "I Hate Elvis" badges as a way to make money from people who weren't buying Elvis merchandise.

At \$5,000 per pound, saffron is the world's most expensive spice. It takes about 75,000 flowers, which need to be plucked by hand, to make one pound of saffron. Saffron is the stigma of a specific variety of crocus.

Tomato sauce is not Italian at all but Mexican. The first tomato sauces were already being sold in the markets of Tenochtitlan when Spaniards arrived, and had many of the same ingredients (tomatoes, bell peppers, chiles) that would later define Italian tomato pasta sauces 200 years later.

In 1935, fishermen caught a tiger shark and put it on display in an aquarium in Sydney, where it vomited a human arm. A shark expert concluded that the shark had not bitten it off, and the limb had been cleanly removed with a blade. The arm also had a tattoo, which revealed that it belonged to a man who had gone missing a few weeks earlier, resulting in a murder investigation and arrest of the criminals.

IC Committee Volunteers

The improvements for May were on the hillside behind the mailboxes, pulling weeds and trimming trees and bushes. We filled the work trailer twice.

The farmer from Leeds released water, which filled the pond, so for the next work party Gerald weed-whacked, and we raked and filled the trailer twice again.

We'd sure love it if more volunteers showed up to the work parties. Bring a rake if you have one and wear gloves and sunscreen. We try to finish before the sun gets too hot, only an hour or so.

Summer is here and we're seeing lots of neighbors working in their yards and pitching in around the park pulling weeds and such. Thank you so much for helping to keep our little oasis beautiful! You are appreciated!

June 13th is National Weed Your Garden Day

June 13 is *Weed Your Garden Day*. Left unchecked, weeds quickly choke out many garden flowers and vegetables. At the very least, the competition they give for sunlight, water, and nutrients causes your plants to be less productive. The purpose of this special day is to spend an extra 5-10 minutes weeding your garden.

Are you ready to participate in this special day!?! Then, go out to your garden and start pulling those pesky weeds. Why is it that weeds grow more prolific than our garden flowers and vegetables? Right now, our gardens have been planted for a long enough time that weeds are growing thickly and rapidly. Weeding is a daily chore. After you complete your weeding, lay down a thick layer of mulch, to suppress the growth of new seeds.

Definition of a Weed: A weed is any plant not in a place where you want it to be. Even edible, medicinal, herbal plants, and even flowers, are weeds if you don't want them where they pop up. Dandelions are a perfect example.

How to Celebrate National Weed Your Garden Day

It is very easy to celebrate this holiday:

- Go out to the garden and spend time removing weeds.
- If you have edible weeds, don't send them to the composter. Rather, make a meal of them.
- Consider using a thick layer of mulch or compost around your plants to minimize weeds.

Weeding Tip: Soak the soil before weeding. It will be easier to pull the roots out.

Around the Neighborhood!

We welcome some more new neighbors again this month. Krystal Glass and Jeremy Piercy are the new owners at 42 Redbluff. They are a younger couple with no children. Krystal grew up in Hurricane and always wanted to purchase a home here. It is a central location between their jobs and they both love being outdoors hiking, fishing, and swimming. Krystal is a Park Ranger at Pipe Spring National monument in Arizona and Jeremy is a machine operator at Genpak in Cedar City. Welcome!

Just for Fun

I don't always go the extra mile, but when I do it's because I missed my exit.

I'm going to start a retirement community for us opinionated people. I'm calling it "Old Yellers."

I arrived early at the restaurant last night. The manager said, "Do you mind waiting for a bit?" I said, "Not at all." He said, "Great, take these drinks to table 9."

I think I may need professional help ... A chef, a butler and a maid should do it.

I wish we could cross-breed the mosquitoes and lightning bugs. At least then we could see them coming.

The Bargaindales table brought in \$85 for the month of May!! Thank you for all your generous donations and contributions!

For those of you who are new, The Bargaindales table is located in the southeast corner of the clubhouse, near the pool table. This is where residents can donate items in good condition that are no longer being used. You can also purchase anything on the table that you want to have for a price that you think is reasonable. Put your payment in the locked box on the wall next to the table. Your donations go to the Activity Committee, the Improvement Committee, and the Newsletter to pay for all the fun activities we have and putting in new flowers, etc. Contact MaryAnn if you have something to donate.

Beautiful crafted card. Judy with supplies. She does a wonderful job teaching card making.

Our Geology

By Karen Burnette

Did you know that the Grand Staircase of the Colorado Plateau in Utah through Arizona means that when you are standing in Bryce National Park at 8,000 feet above sea level and looking at the hoodoos, you are actually standing at the very top of the Grand Canyon in Arizona.

The erosional and weathering patterns of all the rock formations from Bryce through Zion National Park and the Vermillion Cliffs to the bottom of the Grand Canyon have been formed by a combination of continental uplift through shifting of the tectonic plates and the running of the Colorado River.

Geologists estimate that greater than 11,000 vertical feet of rock have been carried away by the Colorado river alone. After John Wesley Powell explored the Green and Colorado Rivers through the Grand Canyon, Clarence Dutton was appointed by Mr. Powell to study the area. Mr. Dutton first named this area the Great Geologic Stairway. If you visit the South Rim of the Grand Canyon, one section of the Rim Hike has rock specimens taken from various places in the canyon. Each specimen is dated. The age of some of these rocks is amazing!

News from the Board

By Jerry Bryant, President

Finally the rain has stopped but the weeds have sprouted! Between the spraying, you pulling or having someone pull your weeds, the HIC work days, and the landscapers doing their job, our neighborhood is looking better! Hence why we, the board have agreed to pull the landscapers off their normal cutting, so every other week we have them work in the wash to help with our weeds! That way we don't pay any extra for their work-it's normal hours--just doing some different stuff; therefore, our dues can stay the same--no increase but we get help in areas that are needed.

The Roadrunner Park bridge is redone--new plywood with Trex on top! Thanks to Dennis and Linda Bingham & my wife (Cindy) for assisting me! Thanks to Big John Gansereit for loaning his truck for me to pick up the plywood and Luis for going with me and using his truck to pick up the Trex! Linda and Dennis also came back the next morning to paint the edges of the bridge! Thank you guys for stepping up and going beyond! Our Roadrunner bridge is nice and sturdy and should last for years!

Our CC & R's are in their final stage through the board and our attorney! Stay tuned soon to see an announcement for a community meeting to go over them then for a vote to finalize them! Finally--after some 6+ years we may just have them done!!

Thanks to Chuck, we are saving some money on our internet/phone/TV. The TDS bill and should be getting better internet service plus more TV channels in our clubhouse! Nice job, Chuck!

My wife Cindy & I enjoyed an awesome family cruise to Cabo San Lucas in mid-May--now we are back! I'll see you around in the park!
