Greetings, friends and neighbors!

As the days grow longer and the summer sun climbs high, we all feel its presence—even if we're avoiding it from the comfort of a shady porch or an air-conditioned room! Here in our corner of the world, the heat can be intense, but it's also a reminder that we're all experiencing this season together. Whether we're walking the dog early in the morning or waiting for the cool relief of evening, we're sharing the same sunshine.

But as many of us know, the real magic of summer happens *after* the sun goes down. That's when the streets and common areas start to fill with neighbors enjoying a stroll, porch lights flicker on, and conversations pick up in the cooler twilight air. It's when we gather—around tables, on patios, or at the clubhouse—exchanging laughter, stories, and maybe a scoop of ice cream or two.

This time of year, it's not just the weather that warms up—it's our sense of connection. From movie nights to potluck dinners to our ever-popular ice cream socials, our community comes to life in those shared moments and after sundown. There's something special about sitting beside one another, not just beating the heat, but enjoying each other's company under the same soft summer sky.

So if you haven't joined us in a while, now's the perfect time. Bring a dish to share, come enjoy a film in good company, or cool off with a sweet treat and a friendly chat. We may be under the same sun by day, but it's the warmth we share after dark that really brings us together.

Check out the Activities column and the monthly calendar and come join us!

Don't forget to mention to all of our advertisers when you visit or contact them, that we appreciate them and are happy to support their business. We LOVE the support from these amazing businesses! Show them how much we support them in return!

H.I.C. Chronicles

We trimmed some trees and shrubs around the putting green. We'll be working in Memorial Park in the coming weeks. There's a large hawk or eagle nesting in the culvert area, so we'll start weeding the other end around Duck Island.

Watch the marquee on the front of the clubhouse for announcements of dates and times. Bring gloves and water!

Activities Committee Report

May was sure an interesting month, with cooler than normal temperatures. It was beautiful for a lot longer than normal, and we loved it so much! We're excited to see the pool finally open!

With our snowbirds flying north for the summer, participation at our regular activities has slowed down a bit, but we're hoping that everyone will still take advantage of the fun and come out and support the things that are offered!

For our April movie, we watched "Top Gun" with Tom Cruise! We had forgotten how exciting that movie was, and was he really that young??

We had a really small turnout at the May potluck, but those of us who were there enjoyed each other's dishes and had a nice visit. Hope you can make it to the next one.

We had a pretty good showing for the ice cream social, with the moms eating for free because of Mother's Day (although most of them paid anyway – thank you for your generosity!).

Here's what's coming up. Remember to check the electronic sign on the front of the clubhouse often for updates and upcoming events. It's always being changed.

- **Friday, May 30 at 6:30 PM** – Movie night: "Hidden Figures" – a movie based on a true story. This got many awards, so we're looking forward to it. As always, movie snacks are free! Come join us!
- **Tuesday, June 10 at 5:30 PM** – Our monthly potluck and bingo night. Come enjoy some great food and have fun at bingo! We're going to be adding some extra prizes to the "pot," so you won't want to miss it. (P.S. If you're opposed to eating potluck for whatever reason, just bring your own food or just come for Bingo – you're always welcome!)
- **Sunday, June 15** – Happy Father's Day and Ice Cream Social – Dads get free ice cream! Come on down for a sweet treat!
- **Saturday, June 28 at 6:30 PM** – Movie Night: Movie to be announced – keep an eye on the sign!

In July, we've planned a summer BBQ that will be paid for by the Activities Committee. Watch for announcements this month because we're going to need everyone to sign up for a head count! Plan to come!

Donald Duck Day Is June 9

Happy Birthday, Donald. We hope that Daisy Duck bakes you your favorite cake! *Donald Duck Day* is in honor of the Walt Disney Donald Duck cartoon debut. This ducky day is certainly all that it's quacked up to be. Nephews Huey, Dewey, and Louie approve.

Donald first appeared in "The Wise Little Hen" on June 9, 1934. While Donald is now 91 years old, he doesn't act a day over 20. Donald is one of Disney's most famous and popular characters. His cartoons have been enjoyed by generations of children.

The Ancient History of Quail Lake

by Karen Brunette

When you are leaving Harrisburg and driving on 318 around Quail Lake, look to your right at the multicolored rock layers that line the road. The brownish-gray rock sediments you will see out the passenger window and across from the campground were laid down during the Triassic period (252 to 201 million years ago).

The sediments consist of mudstone, limestone, shale, and gypsum and were deposited here from meandering streams flowing from the ocean. The ocean, referred to as the Panthalassic Ocean, could be seen from where you are driving because this area was at sea level and neither California nor Nevada existed!

As you look up at the red, gold, and purple rock layers, each layer represents a more recent period of geologic time with the youngest layers being on the top. This rocky area is referred to as the Moenkopi Formation. Moenkopi is a Hopi word for "place of running water."

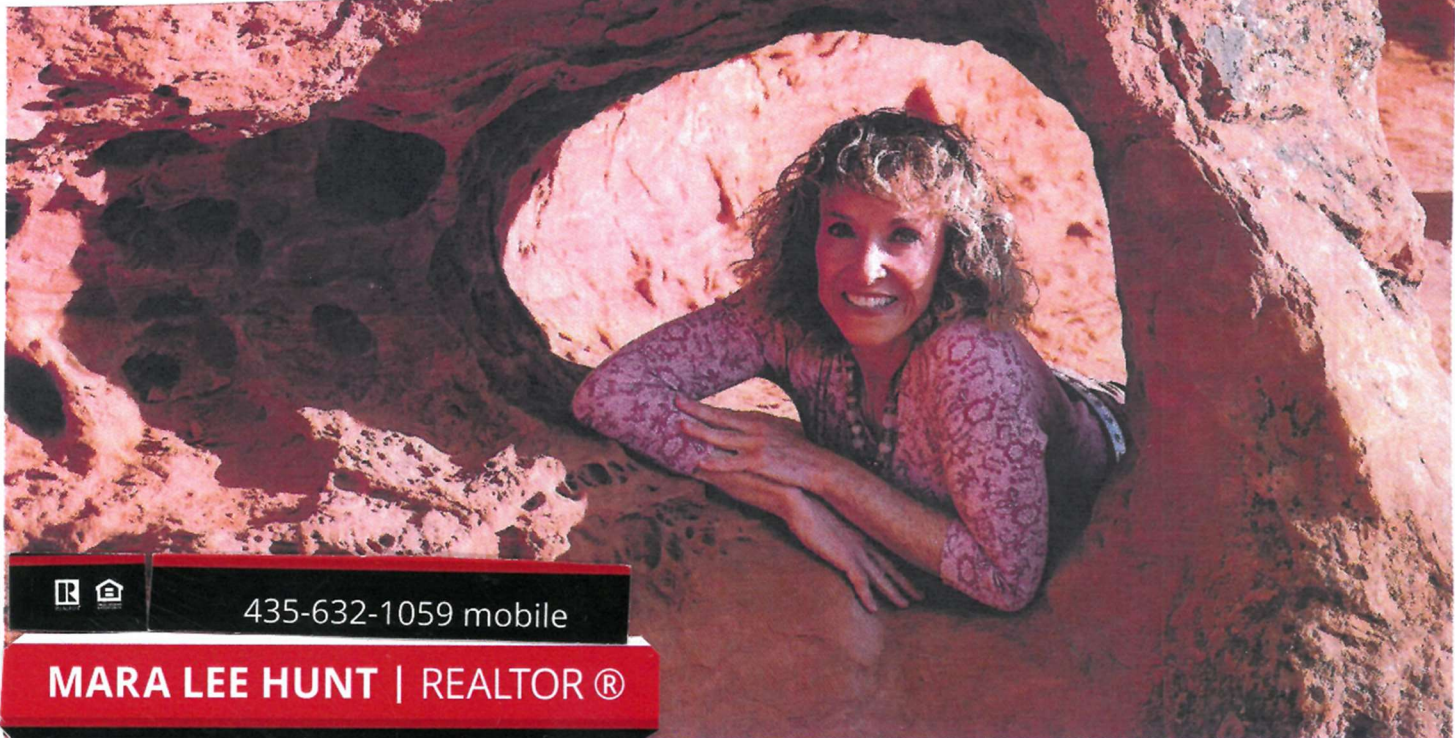

The climate was subtropical and the creatures living in it were marine mollusks, brachiopods, ammonoids and fish. Early lizards and dinosaurs began to appear, but the dinosaurs were the size of kangaroos! This was also the time of Pangea when all the continents were connected into one massive continent.

The same processes that created this colorful area also created Capitol Reef, Canyonlands, San Rafael Swell, and Monument Valley. Future volcanic eruptions and plate tectonic movements uplifted the area over millions of years to give us this beautiful setting.

The Bargaindales table brought in \$89 for the month of May!! Thank you!

Please remember that items are not free—put your donations in the box.

For those of you who are new, The Bargaindales table is located in the southeast corner of the clubhouse, near the pool table. This is where residents can donate items in good condition that are no longer being used. You can also purchase anything on the table that you want to have for a price that you think is reasonable. Put your payment in the locked box on the wall next to the table. Your donations go to the Activities Committee and the Improvement Committee to pay for all the fun activities we have and putting in new flowers, etc. Contact MaryAnn if you have any questions about donations.

Strange BUT TRUE

Dolphins have been known to protect humans when they're in trouble. A California surfer was once being attacked by a shark when a group of dolphins surrounded him and escorted him safely to shore. Dolphins have similarly saved many people, and reports date back to Ancient Greece.

Human teeth are the only part of the body that cannot heal themselves.

Have you ever wondered why we "raise a toast" to someone? This expression originated with the Ancient romans, who used to drop pieces of bread into their wine. This supposedly improved the flavor of the wine.

Competitive art used to be an Olympic sport.

The largest snowflakes to ever fall were 15 inches wide and 8 inches thick.

Around the Neighborhood!

A few friends got together to bid farewell to the VanDykes, who moved to northern Utah to be near family last month. We wish them well in their new location.

For the bowlers out there, Gerald Ciccanti says his nephew, Jay Ciccanti, bowled 259, 300 and 300 for an (859 series) in league play in Mesa AZ. Well done!

I need your eyes and ears. If you know of something noteworthy that our neighbors would find fun, interesting or uplifting, shoot me an email (marvelousmom2@yahoo.com). Bonus points if you have pictures!

Viral TikTok Cucumber Salad

Ingredients

- 1 Cucumber, **sliced**
- 1.5 Tbsp Soy sauce
- 1 Tbsp Sesame oil
- 1 tsp Fish sauce
- 1 tsp Sugar
- sprinkle MSG (Accent)
- 1 clove garlic **grated**
- 2 green onions **sliced**
- 1 tbsp toasted sesame seeds
- Chili Oil to taste

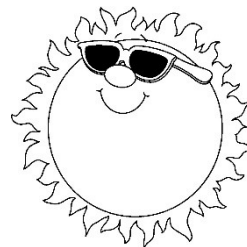

Instructions

1. Use a mandolin to directly slice the cucumber into a deli quart container. Alternatively, use a knife to thinly slice a cucumber and place it in a bowl.
2. Add the rest of the ingredients to the container (or bowl).
3. Place the lid on the container and shake until the cucumber slices are coated evenly with all the ingredients. If your cucumbers are in a bowl, toss well.
4. Enjoy immediately, or place in the fridge and marinate for a couple of hours then enjoy. The cucumbers will be crunchier the faster you eat the salad, so if you want a fresh cucumber salad, enjoy immediately. If you want more of a quick pickled cucumber salad, let marinate for 1-2 hours before enjoying.
5. This is one of those recipes where you can add things or leave things out. The original recipe I found called for soy sauce, sesame oil, rice wine vinegar, chili oil, sesame seeds, and MSG, and they didn't even measure anything, just a few shakes of this and a dash of that. Have fun with it!
